AIV Realises \$3M on Asset Sale

ActivEX Limited (**the Company**) is pleased to announce that it has finalised the sale of its Cloncurry Copper Project to Fetch Metals Limited (**Fetch Metals**) for a consideration of \$3m. The Company chose to dispose of the asset in order to focus exploration on its gold and lithium projects within the Etheridge Province of North Queensland.

The consideration for the sale will be satisfied by the payment \$1.5M cash and \$1.5M worth of shares in Fetch Metals who have commenced the IPO process and are hopeful of being admitted to the listing on the ASX in the first half of 2022. Of the \$1.5M cash consideration, \$750K will be paid as soon as possible following the signing of the Asset Sales Agreement and the remaining \$750K will be paid upon transfer of the tenements to Fetch Metals.

The Cloncurry Copper and Gold Project is situated in northeast Queensland, approximately 60km south of Cloncurry (**Figure 1 & 2**). The Project consists of 18053, 18073, 18852, 25192, 25454, 25455, 15285, and 18511, which comprise a total of 135 sub-blocks and encompasses an area of 432 km².

The Project is situated within the Eastern Succession of the Mount Isa Inlier, which is a highly prospective geological terrane containing numerous major deposits (**Figure 2**). Mineralisation includes but are not limited to Iron Oxide Copper Gold, Skarn style Cu-Au, Merlin-style Mo and Intrusion Related Gold.

Managing Director Mark Derriman Comments: *We are extremely pleased with this deal for the Company which continues the rebuilding of ActivEX into an active explorer, in addition to providing much needed cash which will be used for exploration and, to reduce debt.*

*Fetch Metal has extensive experience in copper exploration and development on the Mt Isa/Cloncurry Region with an experienced technical team. The disposal of the Cloncurry Copper Project allows the Company to focus on advancing its gold and lithium projects in Nth Queensland (**Figure 2**) with the next phase of drill testing at the Gilberton Gold Project set to commence late March/early April weather dependent.*
